Round Cable Stripper - CST-1900

Product Video

PATENTED

The CST-1900 is designed for fast and precise jacket removal of PVC, rubber, PE and other jacket materials, and works well on round cables with diameters ranging from $\frac{3}{16}$ " to $1\frac{1}{8}$ " (4.5-29 mm).

This is a Triple Action Tool, cutting longitudinally for end stripping, spiral for end stripping and mid-span cuts, and circular for jacket removal. A simple versatile easy to use tool your customers will love. The Replaceable Cutting Blade CST-7915 is spring loaded, adjustable for various cable diameters, provides a 90° blade rotation and is designed for long life.
